**RESPONSE TO RESTRICTION REQUIREMENT**

The Honorable Commissioner

Washington, D.C. 20231

Sir:

The Examiner has made a restriction requirement between the following inventions for prosecution on the merits:

*Election*  
*#8*

This election is made with traverse since it appears that a search of the subject matter of the elected invention would, of necessity, overlap the search area of the non-elected invention. Thus, adherence to the requirement would chiefly result in unnecessary work for the PTO in processing separate divisional application(s); unnecessary expense for the applicant in filing it and unnecessary inconvenience to the public in looking in two separate places for closely related subject matters.

It is noted that MPEP 803 states:

"If the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to distinct or independent inventions."

In view of the foregoing, it is submitted that the Restriction Requirement should be withdrawn.

Respectfully submitted,
